ANNUAL REPORT

2024-25

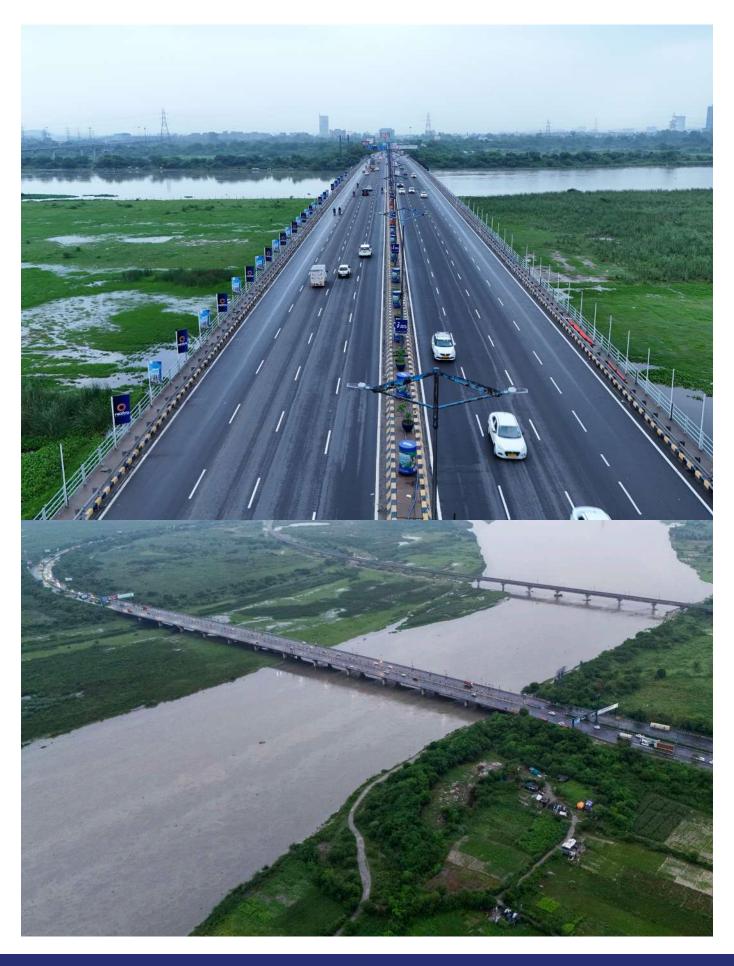

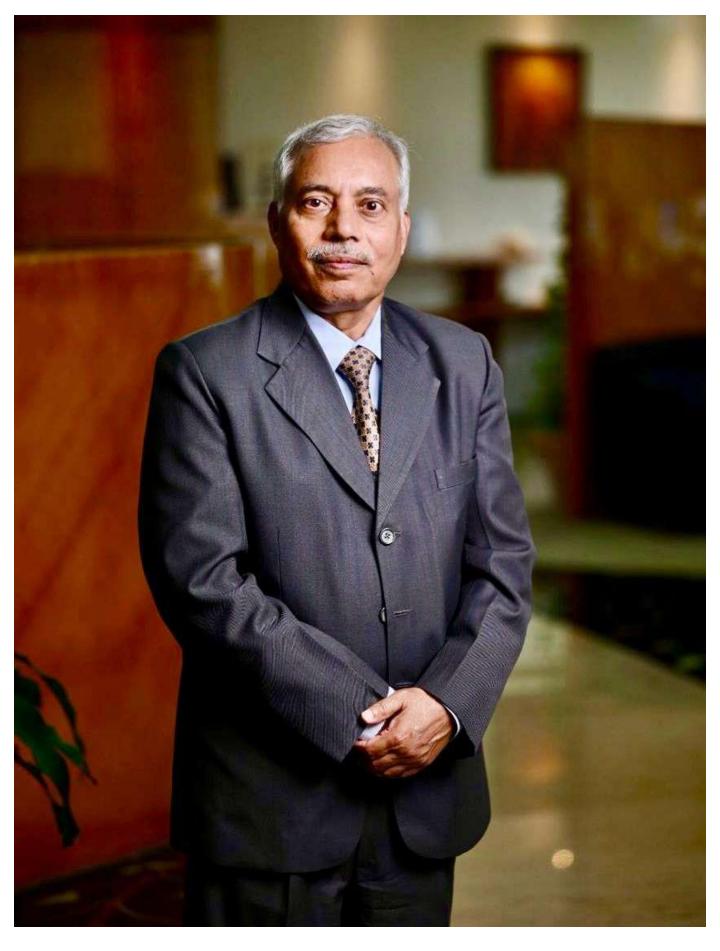

"Chairman's Message"

The year FY2024-25 marked a pivotal period for Noida Toll Bridge Company Limited (NTBCL), a listed infrastructure company and part of the IL&FS Group. The year was shaped by significant legal and regulatory developments, deepening public discourse around public-private partnerships, and ongoing efforts to protect shareholder and lender value amidst an evolving infrastructure resolution landscape.

Legal Developments and Concession Continuity

The Hon'ble Supreme Court, while upholding earlier decisions that discontinued toll collection on the DND Flyway, dismissed NTBCL's Review Petition on May 9, 2025.

Importantly, the Court did not terminate the Concession Agreement. Instead, by applying the Doctrine of Severability, it retained the validity of the contract minus Article 14 (return formula). Thus, NTBCL continues to hold contractual rights and responsibilities as the designated concessionaire.

Termination of the Concession, if ever contemplated by NOIDA, must follow the explicit procedures laid out in the agreement, including financial settlement with the concessionaire and secured lenders. The agreement does not provide for unilateral handover or arbitrary termination.

Furthermore, any termination action cannot proceed without fully compensating secured lenders. Binding loan agreements and financing documents clearly outline lender rights, and any breach of these obligations would risk significant legal and financial repercussions.

Shareholder and Lender Protection

Shareholders of NTBCL have every reason to be proud of the DND Flyway—the infrastructure they helped bring to life through their investment. However, it is understandable that many may feel shortchanged on the overall returns they have received, especially in light of recent adverse judicial outcomes.

With over 60,000 shareholders holding approximately 70 per cent of the Company's equity, NTBCL is acutely aware of its fiduciary duty.

The misconception that NTBCL has already recovered its entire investment is not contractually or financially accurate. The Concession Agreement entitles NTBCL to recover the "Total Cost of the Project and a Reasonable Return," to be assessed by an Independent Auditor and Engineer—a process that remains incomplete.

The Company has been regularly engaging with its shareholders, taking their concerns and inputs into account while shaping its legal and strategic approach. These consultations have helped ensure that shareholder interests remain at the core of NTBCL's decisions.

The Company remains committed to protecting shareholder value and advocating for a just, transparent, and contractual resolution to the issues that have impacted investor confidence.

Upholding Infrastructure Excellence

Despite the cessation of toll revenues since 2016, NTBCL has continued to maintain the DND Flyway to exemplary standards. In FY2023-24, the Company spent $\ref{formula}$ corre on upkeep and has allocated an additional $\ref{formula}$ crore in FY2025-26 for its upkeep despite severe financial constraints..

These efforts were carried out without direct revenue inflows from toll and are a testament to the Company's unwavering commitment to infrastructure integrity, user safety, and civic responsibility.

This commitment reflects a deeper philosophy: infrastructure is not just about tolls and returns; it's about enabling lives, cities, and economies to move forward efficiently and safely.

As the DND Flyway completes over 25 years of service, independent technical assessments have recommended an estimated ₹100 crore investment to strengthen the structural integrity of the bridge and

extend its lifespan by another 50 years

Both NOIDA and Delhi authorities have supported this initiative in principle, but adequate financial provisioning remains pending. NTBCL stands ready to undertake this work in public interest, subject to clarity on funding mechanisms and regulatory support.

It is also disheartening to note that while (rightfully so) private infrastructure projects like DND are routinely subjected to intense public, legal, and media scrutiny, but comparable levels of accountability are not always enforced on government-built infrastructure.

Public-private initiatives must be judged with uniform standards of transparency, performance, and delivery. An imbalanced scrutiny regime risks discouraging private investment in national infrastructure priorities.

Public-Private Partnerships: Reflections and Resilience

The NTBCL experience has reignited critical conversations around Public-Private Partnerships (PPP). While the judiciary rightfully prioritizes public interest, retrospective reinterpretation of fully approved, government-backed contracts introduces uncertainty for private investors.

India's infrastructure financing relies on predictability, sanctity of contracts, and equitable risk-sharing. The DND case should serve as a point of institutional reflection, encouraging evolution—not erosion—of PPP frameworks.

NTBCL's case underscores the need for well-calibrated governance in long-gestation projects. Contracts approved by multiple statutory bodies—including NOIDA itself, which had representation on NTBCL's Board—should not be revisited in isolation and certainly not midway. Investor and lender confidence in PPPs must be preserved to attract private capital at scale.

As India aspires to become a developed nation by 2047, infrastructure will be central to this transformation. High-quality, sustainable, and investor-friendly assets will be the bedrock of national competitiveness.

NTBCL believes that safeguarding the interests of all stakeholders—commuters, investors, governments, and lenders—is crucial in building trust and unlocking future-ready infrastructure.

The DND experience offers vital lessons in resilience, responsibility, and reform.

NTBCL RESOUTION UNDER IL&FS FRAMEWORK

NTBCL is classified as a "green entity" within this framework, underlining its operational viability and strategic relevance. The Group's progress reduces systemic risk and strengthens NTBCL's ability to pursue a fair and lawful settlement path.

However, efforts by IL&FS to monetize NTBCL as part of its resolution strategy have been significantly impeded by recent judicial outcomes.

In terms of equity ownership, IL&FS Networks Limited (ITNL), an IL&FS company, holds 26.37 per cent, whereas the balance 73.63 per cent is held by Govt. Authority/ Public / Institutions.

Further, NTBCL has a subsidiary, ITNL Toll Management Services Limited ("ITMSL"), in which NTBCL holds 51 per cent and balance 49 per cent is held by ITNL. The Company was in receipt of a Copy of the resolution passed by the Board of Directors of ITNL, wherein the New Board of IL&FS, in its meeting held on December 22, 2022 approved conducting a Swiss Challenge process for sale of ITNL's entire equity stake in NTBCL.

Further, the New Board of IL&FS, on February 19, 2023, approved divestment of ITNL's 49 per cent equity stake in ITMSL along with sale of ITNL's entire equity stake in NTBCL under the approved Swiss Challenge process (together "NTBCL Transaction").

Subsequently, the Boards of ITNL (February 24, 2023), NTBCL (March 17, 2023) and ITMSL (March 17, 2023) too approved undertaking the NTBCL Transaction.

However, the New Board of IL&FS, in its meeting held on March 13, 2024 have cancelled the Swiss Challenge Process and have approved the divestment of its 100 per cent holding in NTBCL and ITMSL through Public Sale Process.

The Supreme Court ruling and subsequent dismissal of the review petition have adversely impacted the perceived valuation of NTBCL, limiting its attractiveness for investors and directly affecting the expected recovery for secured creditors—particularly banks that extended public funds to the project.

This poses systemic implications not only for IL&FS's resolution metrics but also for broader infrastructure financing models and its shareholders that rely on judicial certainty and enforceable contracts. in its multi-year debt resolution plan, significantly improving the financial context in which NTBCL operates:

IL&FS Group Resolution: Strengthening NTBCL's Strategic Position

The IL&FS Group—which includes NTBCL—has made substantial progress in its multi-year debt resolution plan, significantly improving the financial context in which NTBCL operates:

- As of March 2025, the Group has resolved ₹45,281 crore of debt, completing resolution for 197 out of 302 entities. This marks nearly 61 per cent of the ₹99,355 crore external debt, surpassing the ₹61,000 crore provisional resolution target.
- Resolution has been achieved through a combination of asset monetization, servicing of operating debt, and distributions to creditors through cash and InvIT units.
- Only 105 entities remain under moratorium, with 57 in advanced stages of resolution under court oversight.

Potential Opportunities:

As India gears up for long-term infrastructure-led growth, high-quality assets like the DND Flyway will become even more critical. DND sits at the nexus of a growing multimodal corridor—where the upcoming Mumbai-Delhi Expressway terminates near Ashram, and where key

connectivity enhancements through Barapullah and Ashram flyover extensions are underway.

These projects further cement DND's role as a vital intercity connector, making it indispensable to Delhi-NCR's transport ecosystem.

Additionally, DND's strategic location and surrounding real estate potential offer new possibilities. With structured development rights and policy clarity, the corridor could unlock long-term value through urban integration, commercial leasing, or land-use reconfiguration—all of which could supplement infrastructure upkeep and reduce fiscal stress.

Risk, Litigations and Compliance

A separate annexure detailing all risks faced and compliance undertaken by the company, including Tax demands, developments in human relations and industrial relations, internal systems and adequacy, financial performance and ratios, litigation matters and orders by regulators and courts is being shared separately

The Way Forward

NTBCL, in consultation with IL&FS and legal advisors, continues to explore legal remedies including the Curative Petition route. It also stands prepared for negotiated resolutions that are aligned with the IL&FS Group's broader resolution framework, which has already addressed over 65 per cent of total group debt.

Our engagement with authorities remains constructive. We reiterate our commitment to lawful resolution, equitable treatment of financial stakeholders, and long-term asset stewardship. NTBCL will continue to act as a responsible corporate citizen, committed to both public value and investor trust.

Sincerely,

Nand Kishore Chairman Noida Toll Bridge Company Limited

The Standalone Gross Revenue from operations for FY25 was Rs. 4024.02 lakhs. An increase of 93.13%, from Rs 2083.56 lakhs in previous FY24. This significant increase was due to full year impact of Advertisement income from the Delhi Side of the DND Flyway which was only approved in Q4 FY24. The Company generates its income primarily from advertisement, which is spread on both Delhi and Noida side of DND Flyway. For the year under consideration, the EBIDTA, has significantly improved over previous year (FY 2024-25 Rs. 1559.60 lakhs, FY 2023-24 Rs. 674.34 lakhs) for reasons explained above. The increase in loss on count of exceptional item namely Impairment of intangible asset.

In view of the judgment of Hon'ble Supreme Court, vide its Order dated December 19, 2024, the Company, as a prudential

accounting and reporting measure, has impaired the intangible asset with carrying value of Rs. 23249.70 lakhs, which it had created by virtue of the rights conferred on the Company under the Concession Agreement, to collect user fee from the users of the NOIDA bridge.

The Consolidated Gross Revenue from operations for FY 25 was Rs. 4024.02 lakhs, an increase of 93.13%, from Rs 2083.56 lakhs in previous year FY24 for reasons explained above. The DND Flyway, is a crucial artery connecting Delhi and Noida. After its inauguration, the travel time between two cities has reduced significantly thereby facilitating smooth and efficient movement for commuters. This expressway not only supports daily commuters but also plays a pivotal role in the economic activities between Delhi and the burgeoning business

hubs in Noida. Hence, maintaining the flyway is essential for both the convenience of the public and the economic well-being of the region.

Subsequent to major road repair work done in 2023, the Company has once again taken a significant step towards improving the balance portion of DND Flyway (not repaired in 2023) by allocating approximately Rs. 5.00 Crore for its immediate repairs and upgrades. This decision is a significant step towards enhancing the infrastructure and ensuring safety for the lakhs of commuters who use this vital roadway daily. The planned repairs, among others, include micro-surfacing, strengthening of embankment, repair of various loops, changes to signage and upgrading associated systems. This comprehensive approach, while underscoring the importance of infrastructure in urban development reflects NTBCL's commitment to maintaining the road in the public interest. This will help augment the road condition thereby ensuring a smoother flow of traffic and an enhanced life of the flyway.

The investment in these immediate repairs will have several direct benefits for the public including but not limited to enhance safety and smoother traffic flow., Additionally, better road maintenance will lower the wear and tear on vehicles, saving commuters on repair and maintenance costs.

From an economic perspective, well-maintained infrastructure attracts businesses and can boost local economies. By ensuring the DND Flyway remains in excellent condition, NTBCL is playing its role in enhancing the commercial activities between Delhi and Noida, facilitating the efficient movement of goods and services.

SLP before Supreme Court

The local resident welfare associations, Federation of Noida Resident Welfare Associations (FONRWA) had filed a Public Interest Litigation ("PIL") in 2012 in the Allahabad High Court ("HC") challenging the validity of the Concession Agreement and seeking the Concession Agreement to be quashed. The Hon'ble HC of Allahabad in a judgement dated October 26, 2016 held that the two specific provisions relating to levy and collection of fee to be inoperative but refused to quash the Concession Agreement. Consequently, collection of user fee from the users of the NOIDA Bridge was suspended from October 26, 2016. However, the Company continues to maintain the Project Assets to the extent permitted by the available resources.

The Company had challenged the HC Judgment before the Hon'ble Supreme Court of India ("SC") by way of Special Leave Petition (SLP No. 33403 of 2016). The Hon'ble SC had on November 11, 2016, passed an order in the aforesaid matter, requesting the Comptroller and Auditor General of India ("CAG") to assist the court in the matter by verifying the claim of the Company that the Total Cost of the Project has not been recovered in accordance with the terms of the Concession Agreement dated 12.11.1997. The CAG filed an Affidavit along with sealed cover report to SC on March 22, 2017. The CAG report clearly specified that Total Cost of Project had not been recovered by the Company. The CAG report also contained some other observations by the CAG, which were outside the scope of its remit. The SC Bench directed that the CAG Report be kept in a sealed cover and need not be provided to the Respondents in the case. The SC stated that the CAG report would continue to remain in a sealed cover.

The matter came up for hearing and/or was heard by the SC on March 5, 2019, March 25, 2019, April 25, 2019 and on 05.10.2020, on which date it was posted for final disposal on 18.11.2020, and it was directed that the counsel for the parties may file written submission if any.

Subsequently, the matter was heard on July 27, 2023 and has been fixed for September 5, 2023. In the meanwhile, the Hon'ble Supreme Court has requested the Learned Additional Solicitor General of India to examine the report submitted by the CAG and assist the Hon'ble Supreme Court.

During the hearing of the matter on 25.09.2023, the Ld. Bench took note of the fact that the Respondents have been provided a copy of the CAG Report, and thus directed the matter to be listed for final arguments on 21.11.2023. On 21.11.2023 the Ld. Bench noted that service and pleadings in SLP(C) 33403 of 2016 were complete and directed the matter to be listed on 30.01.2024 for final hearing. However, the matter was not taken up on 30.01.2024 on account of one of the Ld. Judges sitting in a constitution bench hearing. Similarly, the matter was not taken up on 06.02.2024 and 20.02.2024 due to paucity of time. The matter was next listed on 05.03.2024, wherein the Hon'ble Court, at the request of NTBCL, directed the matter to be listed in priority. The matter again listed on 02.04.2024 and 30.07.2024. The matter was finally heard and reserved for orders on 13.08.2024. The Hon'ble Supreme Court granted liberty to the parties to file written submissions within 10 days on 14.08.2024. NTBCL filed its Written Submissions before the Hon'ble Supreme Court on 24.08.2024.

The Hon'ble Supreme Court by way of its judgement dated 20.12.2024, has dismissed the SLP filed by NTBCL.

NTBCL on 19.01.2025 filed a Review Petition before the Hon'ble Supreme Court (bearing Diary No. 3494 of 2025) inter alia seeking a review of the judgment dated 20.12.2024 and on 19.01.2025 filed a Review Petition before the Hon'ble Supreme Court (bearing Diary No. 3494 of 2025) inter alia seeking a review of the judgment dated 20.12.2024. The Hon'ble Supreme Court vide order dated 29.04.2025 has directed the petition to be listed in open court on 09.05.2025. Arbitration Matters - New Okhla Industrial Development Authority

The Judgment of the Hon'ble HC of Allahabad had constituted a Change in Law as per the Concession Agreement, which obligates NOIDA to modify or cause to modify the Concession Agreement so as to place the Company in substantially the same legal, commercial and economic position as it was prior to such Change in Law. Accordingly, the Company had sent a proposal dated November 17, 2016 under Section 6.3B(a) of the Concession Agreement notifying NOIDA of the resultant Change in Law and occurrence of Events of Default. However, NOIDA failed to take any steps in pursuance of the said proposal. The Company then sent a Notice of Arbitration to NOIDA on February 14, 2017 pursuant to Section 26.1 of the Concession Agreement. The Company had appointed Mr. Justice Vikramajit Sen (Retd.) as its designated Arbitrator. However, NOIDA had not nominated its Arbitrator. In light of the foregoing, the Company had filed a petition on July 20, 2017 under Section 11(4) of the Arbitration and Conciliation Act, 1996 ("A & C Act") in the Hon'ble HC of Delhi which heard the said petition on October 24, 2017 and appointed Mr. Justice S.B Sinha (Retd.) as the Arbitrator on NOIDA's behalf. NOIDA had also filed a Counterclaim Statement of Defence and an Application under Section 16 of the A & C Act raising jurisdictional objections before the Arbitral Tribunal. The Company and IL&FS have filed their reply to the application of NOIDA under Section 16 objecting to the maintainability of the claims within the stipulated time. NOIDA too has filed its written submissions on May 18, 2018 for arguments on application under Section 16 of the A & C Act. On May 19, 2018, the Arbitral Tribunal heard the arguments of the legal counsel of NOIDA and on June 2, 2018 the Arbitral Tribunal heard the objections and arguments of the legal counsel of IL&FS. On September 12, 2018, NOIDA had moved an application for the amendment of their counter claim which was opposed by the Company's Legal Counsel. On September 20, 2018 the Arbitrators stated that (a) amendment of the counter claim filed by NOIDA be left open to be considered at the final hearing and the Company has been given time to file its reply to the said counter claims on or before October 31, 2018, (b) The next date of hearing is November 13, 2018 for (i) settling the points for determination, (ii) determining the order of production of witnesses and issuing such further directions as needed, (c) March 5, 2019 to March 9, 2019 are appointed for recording evidence and (d) April 8, 2019 to April 13, 2019 and April 15, 2019 are appointed for final hearing.

NOIDA had also filed an Application for Directions in the Hon'ble Supreme Court (SC) seeking a stay on the arbitral proceedings and the stay of the interim award dated August 10, 2018 (rejecting NOIDA's Section 16 application) passed by the Arbitral Tribunal.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Noida Toll Bridge Company Limited ("NTBCL/the Company") was promoted by Infrastructure Leasing & Financial Services Limited, ("IL&FS") as a special purpose vehicle for the implementation of the Delhi Noida bridge project on a Build, Own, Operate and Transfer ("BOOT") basis. The Concession Agreement (Concession) executed between the Company, IL&FS and New Okhla Industrial Development Authority ("NOIDA") in November 1997, has given the Company the right to levy a User Fee. The Governments of Uttar Pradesh and National Capital Territory of Delhi have, in January 1998, executed a Support Agreement in favour of the Project/Concessionaire.

The Delhi Noida Direct Flyway (commonly known as the DND Flyway or DND) was opened to traffic in February, 2001 and is an eight lane, 7.5 km. facility across the Yamuna River, connecting Noida to South Delhi. An additional 1.7 km. link connecting the DND Flyway to Mayur Vihar was also commissioned in June, 2007 (Phase I)/January, 2008 (Phase II).

NTBCL is a public Company with Equity Shares listed on the National Stock Exchange and the Bombay Stock Exchange in India.

The Union of India on October 1, 2018 filed a petition with the National Company Law Tribunal ("NCLT") seeking an order under section 242(2) and section 246 read with section 339 of the Companies Act, 2013 on the basis of the interim reports of the ROC and on the following grounds:

- (i) The precarious and critical financial condition of the IL&FS Group and their inability to service their debt obligations had rattled the money market.
- (ii) On a careful consideration of the Union of India, it was of the opinion that affairs of the IL&FS Group were conducted in a manner contrary to the public interest due to its misgovernance; and
- (iii) The intervention of the Union of India is necessary to prevent the downfall of the IL&FS Group and the financial markets.

It was felt that the governance and management change is required to bring back the IL&FS Group from financial collapse, which may require, among other things, a change in the existing Board and management and appointment of a new management.

The National Company Law Appellate Tribunal ("NCLAT") vide its Order dated October 15, 2018 gave a moratorium to IL&FS and its group entities including NTBCL which interalia stated that no creditors can proceed against it except under article 226 of the Constitution. Accordingly, the Company has not been servicing the debt obligations since October 15, 2018.

The New Board, as part of the resolution process, has submitted several progress reports to the NCLT. This includes framework for a resolution plan and process, steps undertaken for monetization of assets, appointment of consultants, and classification of group entities based on their abilities to meet various financial and operational obligations, measures for cost optimization and protocol for making payments beyond certain limits.

The resolution plan seeks a fair and transparent resolution for the Company while keeping in mind larger public interest, financial stability, various stakeholders' interest, compliance with legal framework and commercial feasibility. It is proposed to have a timely Resolution Process which in turn mitigates the fallout on the financial markets of the country and restore investor confidence in the financial markets thereby serving larger public interest. The Company being an associate company of transportation vertical of IL&FS having projects through various group entities, depends on its group entities to continue operating as a going concern. The resolution plan and processes for various verticals are under way and options of restructuring business, as well as exits are planned.

The assessment of the New Board, based on analysis of the current position of and challenges facing the IL&FS group, is that an Asset Level Resolution Approach serves the best interest of all stakeholders to achieve final resolution.

The entities in the IL&FS group, have been classified into Indian and offshore entities. Further, the Indian IL&FS entities have been classified by an independent third party, into three categories of entities based on a 12-month cash flow based solvency test viz. "Green", "Amber" and "Red", indicating their ability to repay both financial and operating creditors, only operating creditors, or only going concern respectively.

The Company is classified as a "Red" entity, indicating that it is not able to meet all obligations (financial and operational) including the payment obligations to senior secured financial creditors. Accordingly, the Company is permitted to make only those payments necessary to maintain and preserve the going concern status.

ECONOMIC REVIEW

Global Economy and Outlook

In calendar year 2024, the global economy demonstrated considerable resilience, achieving a growth rate of 3.3% according to the International Monetary Fund's (IMF) World Economic Outlook. This growth occurred despite of uneven progress across different regions and sectors. Headline inflation eased to 5.8%, moving closer to central bank targets and triggering the initial round of interest rate cuts in several major economies.

Labour markets remained relatively robust, with unemployment rates hovering near historic lows, although there were signs of slight softening. Strong nominal wage increases, coupled with declining inflationary pressures, led to an improvement in real household incomes. Nevertheless, private consumption stayed muted, reflecting cautious consumer sentiment and persistent uncertainty.

Geopolitical tensions, especially in Eastern Europe and the Middle East-intensified, contributing to global instability. These developments disrupted trade, investment flows, and financial markets, continuing to weigh on business confidence and long-term investment planning.

The global economy is at a critical juncture, with significant internal and external imbalances and vulnerabilities. Major policy shifts are underway, generating a new wave of uncertainties with potentially significant implications for the functioning of the global economy. The global economic outlook for 2025 is characterized by slower growth, with the US trade policy playing a significant role in shaping the landscape. The

average US duties remain historically elevated, continuing to exert a drag on global trade and activity. This uncertainty surrounding US trade policy is expected to contribute to slower global growth, with advanced economies projected to grow by only 1.2%.

The ongoing war situations in Russia and Ukraine and escalating war situation in middle east countries can present significant risk of oil price surges, straining public finances and raising inflation. Disruption of trade routes can lead to higher shipping and insurance costs and volatility in financial markets which may lead to investors shift towards safe-haven assets. The emerging geopolitical landscape presents a cautious and complex picture of the

global economy for the year 2025. Escalating trade tensions and policy uncertainty and escalating war situations are major drivers for the economic outlook. The divergent and swiftly changing policy positions and deteriorating sentiment could lead to tighter global financial conditions. Demographic shifts threaten fiscal sustainability, while the recent cost-of-living crisis may reignite social unrest. The financial market landscape is marked by increased uncertainty and market volatility, against the backdrop of stretched valuations within many segments of financial markets. Global growth is projected to decline, following a period of steady but underwhelming performance. As per the IMF report of April 2025, the global growth is expected to decline to 2.8% in 2025 and 3% in 2026, down from 3.3% in both 2024 and 2023. Advanced economies are projected to grow at 1.4% in 2025, with the US slowing to 1.8% and the Europe at 0.8% and emerging market and developing economies are expected to slow down to 3.7% in 2025 and 3.9% in 2026.

Indian Economic Overview and outlook

India continues to be one of the fastest-growing major economies globally, supported by its favourable demographic profile, strong domestic consumption, ongoing structural reforms, and a sustained drive towards digital transformation. Key contributors to this growth include healthy GST collections, expanding infrastructure, manufacturing sectors, and rapid technological adoption across industries. The government's emphasis on improving the ease of doing business and nurturing a vibrant startup ecosystem has further bolstered economic momentum.

However, GDP growth moderated to 6.5% year-on-year in FY2025, reflecting the combined impact of global economic headwinds and domestic challenges. Factors contributing to this slowdown include a decline in manufacturing output, elevated food inflation, tepid urban demand, limited job creation, widening trade deficits, and subdued private sector investment. Despite these hurdles, India remains on a stable growth trajectory, driven by robust manufacturing, diversifying services, increased infrastructure spending, and governmentled initiatives promoting digitalisation, financial inclusion, and business-friendly reforms. Efforts to diversify trade through new free trade agreements have helped mitigate external risks, while rising urbanisation and growing middle class have supported consumer spending. Inflationary pressures, driven by global supply chain disruptions and volatile commodity prices, prompted the Reserve Bank of India (RBI) to take proactive measures to

balance inflation control with economic growth. India's total exports reached a record high of \$824.9 billion in 2024-25, driven by strong services exports and increased merchandise exports excluding petroleum products. This figure represents a 6.01% increase over the US\$778.1 billion exported in 2023–24, marking a significant leap in the country's economic trajectory. Private consumption saw a rebound, contributing to overall economic growth.

India's real GDP is expected to expand by 6.3% in FY2025-26 and 6.4% in FY2026-27. This growth will be primarily driven by a gradual recovery in private consumption, supported by rising real incomes due to moderate inflation, recent tax relief measures, and a strengthening labour market. Investment activity is likely to benefit from falling interest rates and robust public capital expenditure. However, increased tariffs from the United States may dampen export performance. Inflation is projected to remain stable at around 4%, in line with trend-level economic growth. Nonetheless, risks such as spike in global commodity prices could lead to higher food inflation.

The Union Budget for FY2025-26 outlines a path of moderate fiscal consolidation, targeting a reduction in the fiscal deficit from 4.8% of GDP in FY2024-25 to 4.4% in FY2025-26. With inflation well within the target range, monetary policy is expected to gradually shift towards a more accommodative stance. Enhancing the efficiency of public spending through better targeting of energy and fertilizer subsidies, along with rationalizing tax expenditures, could free up resources for other developmental priorities. Additionally, improvements in logistics, digital infrastructure, and greater policy predictability especially in tax administration are expected to encourage private sector investment.

INDIAN REAL ESTATE MARKET

The Indian housing sector continues to be a vital contributor to the country's economic growth, with its share in GDP expected to reach 13% by 2024–25. This underscores both its current strength and future potential. Real estate is India's second-largest employment generator after agriculture. Recognizing housing as a basic necessity and a major source of employment, the government has consistently supported the sector through budgetary allocations, regulatory reforms, and targeted welfare initiatives.

By 2030, the housing market is anticipated to grow into a USD 1 trillion industry, propelled by demographic changes, supportive policies, and global trends. Tier 2 and Tier 3 cities are emerging as significant growth hubs. Urban homeownership is on the rise and projected to increase from 65% in 2020 to 72% by 2025, driven by affordable financing, the trend toward nuclear families, rapid urbanization, and a younger population entering the market. The Urban population is expected to hit 542.7 million by 2025. The FDI inflow in construction between year 2000–2024 has reached US\$ 44.46 billion supporting momentum for continuous growth. The major growth vectors for real estate can be summarised as under:

1. Policy Support

- 100% FDI allowed in township development.
- PM Awas Yojana Urban 2.0: Rs. 10 lakh crore investment for housing.

2. Government Support

- PMAY-U: 119.7 lakh houses sanctioned.
- REITs and InvITs raised US\$ 9.7 billion.
- Tax reliefs and stamp duty reductions.
- Green building movement gaining momentum.

3. Increasing Investments

- PE investment rose 6% to US\$ 2.82 billion in FY25.
- Foreign inflows up 37% YoY in H1 2024.

4. Robust Demand

- Luxury housing sales up 53% in 2024.
- Data center demand to grow by 15–18 million sq. ft. by 2025.

5. Attractive Opportunities

- Real estate CAGR of 9.2% (2023–2028).
- Blackstone plans US\$ 22 billion additional investment by 2030.

The sector's growth, which picked up momentum in 2023, continued robustly through 2024-25. Residential sales across India's top eight cities reached 4.5 lakh units, reflecting a 10% year-on-year growth. New project launches hit a record 5.6 lakh units. Early 2025 saw further momentum, with 1.4 lakh units sold and inventory levels dropping by 8%.

The mid-income housing segment, priced between ₹40–80 lakhs, remains dominant, accounting for 34% of new launches. Demand is robust across all price brackets, supported by stable interest rates, rising disposable incomes, and a growing preference for larger homes. There is a noticeable shift toward high-value home loans, driven by increased construction costs and the preferences of upper-middle-class buyers and High Net-Worth Individuals (HNIs) for luxury and spacious homes.

Despite these advancements, India still faces a significant housing deficit, with a shortfall exceeding 31 million units. Of this, 26 million units are needed by the Lower Income Group (LIG) and Economically Weaker Sections (EWS), particularly in rural and semi-urban areas. In urban regions, the shortage is mainly due to overcrowding and substandard housing, while in rural areas, it stems from the prevalence of non-serviceable or kutcha homes.

Opportunities and Threats

The Noida Toll Bridge competes for traffic with two other free bridges across the Yamuna River. located on either side of the facility i.e. the Nizamuddin Bridge which is 2 kms upstream and the Okhla Barrage / Kalindi Kunj Bridge which is 1 km. downstream.

To cater to the growing need for improved connectivity between Noida and Delhi, NOIDA is implementing a 6 lanes road bridge parallel to the existing Okhla Barrage bridge.

The National Capital Region Transport Corporation (NCRTC) has implemented the Delhi to Meerut Rapid Rail Transit Systems (RRTS) and the alignment of the said corridor has crossed the Mayur Vihar Link Road (MVLR) near the MVLR Toll Plaza.

PWD Delhi-Flyover Division (PWD) has implemented the Extension of Ashram Flyover to DND Flyway. The work was approved by the Unified Traffic and Transportation Infrastructure (Planning & Engineering) Centre (UTTIPEC) considering the traffic problem between DND to Ashram Chowk. The extension on the AIIMS- Noida arm of flyover has merged with DND Flyover before Delhi Interchange Bridge and additional lanes have provided on LHS of DND Flyway for at grade traffic going to Noida.

National Highways Authority of India (NHAI) is implementing the project for Development of economic Corridors, Inter Corridors and Feeder routes to improve the efficiency of freight movement in India under Bharatmala Pariyojana (Lot-4/Package-1) Faridabad-Ballabhgarh Bypass Junction with Delhi-Vadodara expressway KMP-interchange. The project has been accorded priority-1 & has been approved by MoRT&H. New elevated proposed corridor crossing Delhi Interchange North to South direction to bypass the NH- 2 bound traffic in ITO/Faridabad direction and vice versa and additional lanes will be provided on RHS arm at Km. 1000 of DND Flyway to provide access to NH-2 bypass for the traffic coming from Noida.

Further, Government of Delhi is extending the Barapullah Nallah Elevated Road (BPNER) across the Yamuna River, to connect to the UP-Link Road at a point less than 1 km upstream from the Mayur Vihar link Road.

There was also a proposal of Ghaziabad Development Authority to extend the Hindon Elevated Road to UP Link Road and connecting to the Mayur Vihar Link Road. The proposed connector road also built along the Hindon Canal.

At present, pursuant to the judgement of the Allahabad High Court and interim order of the Supreme Court, the Company is not collecting toll from the users, However, in the event the toll is restored, the traffic and toll collections will have some impact by the above developments which cannot be quantified currently.

SEGMENT WISE PERFORMANCE

The Company is primarily engaged in construction and thus has only one segment. Hon'ble High Court of Allahabad had, vide its Judgement dated October 26, 2016 on a Public Interest Litigation filed in 2012 (challenging the validity of the Concession Agreement and seeking the Concession Agreement to be quashed) has directed the Company to stop collecting the user fee holding the two specific provisions relating to levy and collection of fee to be inoperative but refused to quash the Concession Agreement. Consequently, Collection of user fee from the users of the NOIDA Bridge has been suspended from October 26, 2016.

Presently, the Company is generating revenue mainly from outdoor advertising on DND Flyway, and rent for use of space for collection of Entry Tax and Environment Compensation Charge by the Contractor appointed by South Delhi Municipal Corporation of Delhi and Licence fee for use of space near DND for mobile towers.

The non-toll revenue during FY 2024-25 is Rs. 4024.02 lakhs as compared to Rs. 2083.56 lakhs for FY 2023-24 registering an increase of 93.13%.

Outlook

Outlook has to be appreciated in light following significant development:

- Pertaining to stoppage of charging user fee The Hon'ble Supreme Court by way of its judgement dated 20.12.2024, has dismissed the SLP filed by NTBCL. On 09.05.2025 Hon'ble Supreme Court refused to review its decision and dismissed the plea seeking review of the Order dated December 20, 2024 verdict.
- 2. Huge demand from Income tax The ITAT decision dated August 8, 2023 has provided significant relief in terms of bringing clarity on Income tax matter (having addressed the demand to the extent of 72%) and it is highly likely that balance amount will also be addressed given it is but an extrapolation of demands that have been set aside. On May 16, 2024 and ITAT basis its Order dated August 08, 2024 deleted the penalty levied in respect of AYs 2006-07 to 2011-12 and the Stay Application was also dismissed as infructuous. Further, penalty appeals and stay applications for AYs 2012-13, 2013-14 and 2014-15 stand adjourned to September 4, 2024. Pursuant to the same, the ITAT passed the order for penalty appeals in respect of AY 2012-13, 2013-14 and 2014-15 on 11.09.2024, deleting the penalty levied and allowing the appeals of the Company.

For Assessment Year 2018-19, wherein a demand of Rs. 46.23 crores has been raised, the Commissioner of Income Tax Appeal CIT(A) vide Order dated July 3, 2025 has allowed the appeal of the Company. For the Assessment Years 2016-17 and 2017-18, wherein a demand of Rs. 357.00 crores and Rs 383.48 crores respectively has been raised, the CIT(A) vide Order dated July 4, 2025 has allowed the appeal of the Company. Order giving effect to the ITAT Orders including with regard to penalties for AY 2006-07 to 2011-12 have been passed by the Assessing Officer on October 9, 2024.

RISK AND CONCERNS

Income Tax Matters

The Company has been contesting an income tax demand including penalty of Rs. 23,127/- Crores for period from AY 2006-07 to AY 2014-15 at ITAT. Such hearing were greatly delayed on account of limited functioning of Tribunal on account of Covid related restrictions.

Subsequent to lifting of such restrictions and by means of proactive approach of the New Board in calling for early hearing, Company has been able to secure hearing in the matter.

Accordingly, the matter was heard, argued and counter argued on July 26, 2023, August 1, 2023 and was concluded on August 2, 2023. Consequently, vide its Order dated August 8, 2023, the

Hon'ble ITAT has pronounced its judgment for Assessment Years 2006-07 to 2011-12, wherein the appeals of the Revenue were dismissed and appeal of Company was allowed. As a result of this, approximately 72% of the total Demand of Rs. 23,127/- crores has been addressed by means of the ITAT Order dated August 8, 2023. On May 16, 2024 Hon'ble ITAT basis its Order dated August 08, 2024 deleted the penalty levied in respect of AYs 2006-07 to 2011-12 and the Stay Application was also dismissed as infructuous. Further, penalty appeals and stay applications for AYs 2012-13, 2013-14 and 2014-15 stand adjourned to September 4, 2024. Pursuant to the same, the ITAT passed the order for penalty appeals in respect of AY 2012-13, 2013-14 and 2014-15 on 11.09.2024, deleting the penalty levied and allowing the appeals of the Company.

Accordingly, the Company had sent a proposal dated November 17, 2016 under Section 6.3B(a) of the Concession Agreement notifying NOIDA of the resultant Change in Law and occurrence of Events of Default. INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF NOIDA TOLL BRIDGE COMPANY LIMITED

Report on the audit of Standalone Financial Statements

Opinion

We have audited the standalone financial statements of **NOIDA TOLL BRIDGE COMPANY LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view, in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI), together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to the following:

(a) Note 33(iii) & 34(ii) to the standalone financial statements, as per which, in addition to the existing income tax demand on the Company of Rs. 1,34,002.60 lakhs, for various assessment years between 2006-07 to 2014-15, the Company was served an additional tax demand for the said years aggregating Rs. 10,89,330.52 lakhs, along with imposition of an equivalent amount of penalty, i.e. Rs. 10,89,330.52 lakhs, for the said assessment years, resulting in a total demand of Rs. 23,12,663.64 lakhs, against which the Company had appealed to the Income Tax Appellate Tribunal (ITAT). Further, the Company was served with income tax demand for assessment years 2016-17, 2017-18 and 2018-19 aggregating Rs. 78,670.35 lakhs.

The ITAT, has vide its Orders dated August 8, 2023, and August 21, 2024, pertaining to AY 2006-07 to AY 2011-12 and AY 2012-13 to AY 2014-15 respectively, allowed the appeal of the Company by pronouncing the enhancement of demand by the CIT(Appeals) as bad in law. Further, the ITAT, has vide its Orders dated May 17, 2024 and

September 11, 2024, quashed the levy of penalty pertaining to AY 2006-07 to AY 2014-15. We are informed that the Income Tax department has not yet preferred an appeal against the said orders of the ITAT.

In view of the aforesaid Orders of the ITAT and facts of the case of other matters, the Management of the Company is of the view that the said demands are devoid of any justification or merit. Consequently, the Company has not made any provision for the demands in its financial statements.

(b) Note 32 to the standalone financial statements, which relates to the Order dated March 12, 2020, of the Hon'ble NCLAT, confirming October 15, 2018, as the cut-off date for initiation of resolution process for IL&FS and its group companies. The said Order provides moratorium against actions by creditors against IL&FS and its group companies, including the Company. Consequently, the Company has not made a provision for interest on loans, taken from ICICI Bank Limited and IL&FS Transportation Networks Limited (ITNL), aggregating Rs. 1,371.74 lakhs for the year ended March 31, 2025 and Rs. 7,075.68 lakhs upto March 31, 2025.

Our opinion is not modified in respect of the above matters

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No	Key Audit Matter	Auditor's Response
1.	Evaluation of uncertain tax positions The Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes. Refer notes 33(iii) and 34(ii) to the standalone financial statements	Principal Audit Procedures Obtained details of completed tax assessments, demands and other relevant correspondences for the year ended March 31, 2025 from the management. We also reviewed management's stand in the Appeal Petitions filed by the Company. We discussed the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. We also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions.

Sr. No	Key Audit Matter	Auditor's Response	Sr. No	Key Audit Matter	Auditor's Response
2.	Suspension of Toll Operations at NOIDA DND Toll Flyway as per the Order of the Hon'ble Supreme Court. On the Public Interest Litigation filed in 2012, challenging the validity of the Concession Agreement and seeking the Concession Agreement to be quashed, the Hon'ble Allahabad High Court directed the Company to stop collecting the toll fee. Consequently, collection of toll fee was suspended since October 2016. The Company's appeal to the Supreme Court against the above judgment was dismissed on December 20, 2024. As the Company, by virtue of the concession arrangement, had obtained the right to collect toll from users of the bridge, it had created an intangible asset in the books, the net written down value of which as at December 31, 2024 was Rs. 23,249.70 lakhs. Consequent to the Supreme Court dismissing the appeal of the Company, thereby upholding the decision of the Allahabad High Court regarding stalling the levy and collection of toll fee, the Company, as a prudential accounting practice, has impaired the intangible asset. Refer note 34(i) to the standalone financial statements.	We have reviewed the Concession Agreement initially entered into by the Company with NOIDA, together with the Order of Hon'ble Supreme Court dated November 2016, denying interim stay to the Company from collecting user fee. We have reviewed the stand taken by the Company and the proposal of modification of the Concession Agreement which the Company has submitted to NOIDA. We have also reviewed the orders of the Arbitration Proceedings on the claims and counter claims filed by both the Company and NOIDA. Further, we reviewed the Order dated April 12, 2019, of the Hon'ble Supreme Court, directing stay on the Arbitral Proceedings, the Company's application filed in the Hon'ble Supreme Court on January 31, 2020, seeking vacation of interim stay and the Order of the Supreme Court dated December 20, 2024, dismissing the appeal of the Company.	3.	Evaluation of National Company Law Tribunal (NCLT) Order. IL&FS is the promoter and majority shareholder of ITNL, while ITNL is the promoter of the Company. On October 1, 2018, NCLT has passed an order under the provisions of Section 241 and 242 of the Companies Act, 2013. The Company being a group company is also a party to it. National Company Law Appellate Tribunal (NCLAT) passed an interim order dated October 15, 2018, granting a moratorium on all creditor actions against IL&FS and its group companies. The Hon'ble NCLAT, vide its order dated March 12, 2020, has approved the revised resolution plan submitted by the new board of directors and has also approved October 15, 2018, as the cut-off date for initiation of resolution process for IL&FS and its group companies. Basis the above, the Company has not made a provision for interest on loan taken from ICICI Bank Limited and ITNL, aggregating Rs 1,371.74 lakhs, for the year ended March 31, 2025 and Rs. 7,075.68 lakhs upto March 31, 2025. Refer note 32 to the standalone financial statements.	Principal Audit Procedures We have reviewed the orders uploaded on the NCLT website relating to the Company, have read all the updates provided to the stock exchange by the Company in relation to the NCLT matter and have also reviewed the Hon'ble NCLAT's Order dated March 12, 2020.

4.	Arrears of outdoor advertising & licence fee The Company has received a demand notice dated September 28, 2018, from NOIDA for Rs 369 lakhs, towards arrears of outdoor advertising and further demand notices during December 2018 and April 2019, aggregating Rs 476 lakhs, towards arrears of licence fee, for which no provision has been made by the Company. Refer note 34(vi) to the standalone financial statements.	Principal Audit Procedures Our audit approach was appraisal of arrangement / agreements and legal stand taken by the Company. Reviewed the Advertisement Policy of NOIDA and the permission letter received by the company for the display of outdoor advertisement. Correspondence between Company and NOIDA was also reviewed wherein the Company has requested to keep the demand in abeyance as the matter has been referred to Arbitration. Company has also served copy of NCLAT Order dated October 15, 2018, wherein moratorium has been granted to the Company against all creditor actions.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and the cash flows of the Company, in accordance with the accounting principles generally accepted in India, including the accounting standards (Ind AS) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting

Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records, in accordance with the provisions of the Act, for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively, for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain, reasonable assurance about whether the standalone financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit, in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's

report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content
of the standalone financial statements, including the
disclosures, and whether the standalone financial
statements represent the underlying transactions and
events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are, therefore, the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure "B" to the Auditors Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **NOIDA Toll Bridge Company Limited** ("the Company") as at March 31, 2025, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting, issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively, for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable

assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Delhi Noida Toll Bridge comprises the Delhi Noida Toll Bridge, adjoining roads and other related facilities, Mayur Vihar Link Road and the Ashram flyover which has been constructed at the landfall of the Delhi Noida Toll Bridge and it operates under a single business and geographical segment.

(b) Service Concession Arrangement entered into between IL&FS, NTBCL and NOIDA

A 'Concession Agreement' entered into between NTBCL, Infrastructure Leasing and Financial Services Limited (IL&FS, the promoter company) and New Okhla Industrial Development Authority (NOIDA), Government of Uttar Pradesh, conferred the right to the Company to implement the project and recover the project cost, through the levy of fees/toll revenue, with a designated rate of return over the 30 years concession period commencing from December 30, 1998 i.e. the date of Certificate of Commencement, or till such time the designated return is recovered, whichever is earlier. The Concession Agreement further provides that in the event the project cost with the designated return is not recovered at the end of 30 years, the concession period shall be extended by 2 years at a time until the project cost and the return thereon is recovered. The rate of return is computed with reference to the project costs, cost of major repairs and the shortfall in the recovery of the designated returns in earlier years. As per the certification by the independent auditors, the total recoverable amount comprises project cost and 20% designated return. NTBCL shall transfer the Project Assets to NOIDA in accordance with the Concession Agreement upon the full recovery of the total cost of project and the returns thereon.

In the past, NOIDA has been in discussion with the Company to consider modifications of a few terms of the Concession Agreement. The Company at its July 9, 2015 Board Meeting, approved the draft proposal (subject to approval by NOIDA & shareholders) for terminating the concession and handing over the bridge on March 31, 2031 and freezing the amount payable as on March 31, 2011.

(2) Material Accounting Policy Information

(a) Statement of Compliance

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind

AS) notified under section 133 of the Companies Act, 2013 ("the Act"), Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

(b) Basis of Preparation of Standalone Financial Statements

These standalone financial statements have been prepared in accordance with the assumption of going concern and on a historical cost basis, except for financial assets and financial liabilities which have been measured at fair value at the end of each reporting period. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss and the Statement of Cash Flows are based on the principle of materiality.

All assets and liabilities have been classified as current or non-current as per the criteria set out in the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(c) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3, based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing

categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(d) Accounting for Rights Under Service Concession Arrangement, Significant Accounting Judgments and Estimates

The preparation of these standalone financial statements in conformity with Ind AS requires the management to make certain estimates, judgements and assumptions that affect the amounts reported in these financial statements. Judgements and estimates are evaluated on an ongoing basis and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Changes in estimates are reflected in these financial statements in the period in which the changes are made.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Significant assumptions used in accounting for the intangible asset are given below:

- The Company has concluded that as operator of the bridge, it has provided construction services to NOIDA, the grantor, in exchange for an intangible asset, i.e. the right to collect toll from road users during the Concession period. Accordingly, such intangible asset has been measured at cost, i.e. fair value of the construction services. The Company has recognised a profit which is the difference between the cost of construction services rendered (the cost of the project asset) and the fair value of the construction services.
- The exchange of construction services for an intangible asset is regarded as a transaction that generates revenue and costs, which have been recognised by reference to the stage of completion of the construction. Contract revenue has been measured at the fair value of the consideration receivable.
- The Management has capitalised qualifying finance expenses until the completion of construction.
- Such intangible asset is assumed to be received only upon completion of construction and recognised on such completion. Until then, the management has recognised a receivable for its construction services. The fair value of construction services have been estimated to be equal to the construction costs plus margin of 17.5% and the effective interest rate of 13.5% for lending by the grantor. The construction industry margins range between 15-20% and the Company has determined that a margin of 17.5% is both conservative and appropriate. The effective interest rate used on the receivable during construction is the normal interest rate which grantor would have paid on delayed payments.
- The Company considers that they will not be able to earn the assured return under the Concession Agreement over 30 years. The Company has an

assured extension of the concession as required to achieve project cost and designated returns. Post judgement of Hon'ble High Court of Allahabad dated October 26, 2016 wherein the Company has been directed to stop collecting the user fee has warranted to change the useful life of such Intangible Asset to 30 years.

- Development rights will be accounted for as and when exercised.
- The value of such intangible asset has been amortised over the estimated useful life using straight line method from October 27, 2016 (hitherto in the proportion of the revenue earned for the period to the total estimated toll revenue i.e. revenue expected to be collected over the concession period) upto December, 20 2024, being the date such asset was impaired...
- The carrying value of the aforesaid intangible asset was being reviewed for impairment annually or more often if events or changes in circumstances indicated that the carrying value may not be recoverable as the Supreme Court has dismissed the appeal of the Company, thereby upholding the aforesaid decision of the Allahabad High Court, the Company as a prudential accounting measure has impaired the intangible asset w.e.f December 20, 2024.

Maintenance obligations: Contractual obligations to maintain, replace or restore the infrastructure (principally resurfacing costs and major repairs and unscheduled maintenance which are required to maintain the bridge in operational condition except for any enhancement element) are recognized and measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provision for the resurfacing is built up in accordance with the provisions of Ind AS 37. Timing and amount of such cost are estimated and recognised on straight line basis over the period at the end of which the overlay is estimated to be carried out based on technical evaluation by independent experts

(e) Foreign Currency Transactions

The functional currency of the Company is Indian Rupees. Transactions in foreign currencies are initially recorded in the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange prevailing on the balance sheet date. The exchange difference arising on account of the difference between the rates prevailing on the date of transaction and on the date of settlement, as also on translation of monetary items at the end of the year is recognized as income or expense, as the case may be, in the Statement of Profit and Loss for the period / year.

(f) Property, Plant & Equipment

Property, Plant and Equipment have been stated at cost less accumulated depreciation and impairment losses, if any. Cost includes all expenses, direct and indirect, specifically attributable to its acquisition and bringing it to its working condition for its intended use. Incidental expenditure pending allocation

and attributable to the acquisition of fixed assets is allocated / capitalised with the related assets. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

The carrying values of Property, Plant and Equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the Statement of Profit and Loss, when the asset is derecognised.

The residual values and useful lives of the assets are reviewed and adjusted if appropriate, at the end of each financial year.

(g) Depreciation

All items of Property, Plant and Equipment are depreciated on a Straight Line Method (SLM), over the useful life of such items as prescribed under Schedule II of the Companies Act, 2013 other than items specified in para below.

The following items are depreciated over the useful life, other than the life prescribed under Schedule II of the Companies Act, 2013, based on internal technical evaluation, taking into account the nature of the asset, the estimated usage thereof, the operating conditions, past history of replacement, anticipated technological changes etc.:

Building	30 years
Data Processing Equipment	3 years
Furniture & Fixtures	7 years
Mobile and Ipad/Tablets	2 years
Vehicles	5 years

(h) Impairment

At each balance sheet date, the items of property, plant and equipment and intangibles are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount of such items is reviewed in order to determine the extent of impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and

the risks specific to the asset. An impairment loss is recognised in the Statement of Profit and Loss as and when the carrying amount of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

(i) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. Where funds are temporarily invested pending their expenditures on the qualifying asset, any such investment income, earned on such fund is deducted from the borrowing cost incurred.

All other borrowing costs are recognised as finance charges in the Statement of Profit and Loss in the period in which they are incurred.

(i) Inventories

Inventories of Electronic Cards (prepaid cards) and "On Board Units" are valued at the lower of cost or net realisable value. Cost is recognised on First in First out basis.

(k) Provisions and Contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Profit & Loss net of any reimbursement.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

(1) Employee Costs

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. The Company has no obligation, other than the contribution payable to the provident fund and superannuation fund.

For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each balance sheet date. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in Other Comprehensive Income in the period in which they occur. Re-measurement recognised in Other Comprehensive Income is reflected in retained earnings and will not be reclassified to profit and loss.

Past service costs are recognised in Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate at the beginning of the year to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments) and
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in Statement of Profit and Loss under 'Employee Benefits Expense'. Curtailment gains and losses are accounted for as past service costs.

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the Company can no longer withdraw the offer of the termination benefit or when it recognizes any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to

employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

(m) Leases

The Company assesses whether a contract contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Where this occurs, the arrangement is deemed to include a lease and is accounted for either as finance or operating lease. Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

(n) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue comprises:

Toll Revenue

Toll Revenue is recognised in respect of toll collected at the Delhi Noida Toll Bridge and Mayur Vihar link Road and the attributed share of revenue from prepaid cards.

License Fee

License fee income from advertisement hoardings, office space and others is recognised on an accrual basis in accordance with contractual rights.

Interest income

Revenue is recognised as interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset).

(o) Taxation

Current tax

Current tax represents the amount that would be payable based on computation of tax calculated using tax rates and tax laws that have been enacted

or substantively enacted by the end of the reporting period. Current tax is determined based on the amount of tax payable in respect of taxable income for the year.

Deferred tax

Deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax assets and unused tax losses (where such right has not been forgone), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax assets and unused tax losses can be utilised, except where the deferred tax asset is relating to the deductible temporary difference arising from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Current and deferred tax are recognised as an expense or income in the Statement of Profit and Loss, except when they relate to items credited or debited either in Other Comprehensive Income or directly in equity, in which case the tax is also recognised in Other Comprehensive Income or directly in equity.

Minimum Alternative Tax (MAT)

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax during the specified period. Accordingly, MAT entitlement is recognised as an asset in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify. Such asset is reviewed at each balance sheet date and the carrying amount of MAT credit asset is written down

to the extent there is no longer a convincing evidence to the effect that the company will pay normal income tax during the specified period.

(p) Financial Assets

All regular way purchases or sales of financial assets are recognised and de-recognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the trade receivables, deposits and other financial assets measured at amortised cost.

The Company de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Statement of Profit and Loss as if such gain or loss would have otherwise been recognised in Statement of Profit and Loss on disposal of that financial asset.

(q) Financial Liabilities and Equity Instruments

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate

The Company's financial liabilities include trade and other payables, loans and borrowings.

Classification as debt or equity:

Debt and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of the liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities that are not held-for-trading and are not designated as FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities

that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'finance costs'.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in Statement of Profit and Loss.

(r) Share based payment transactions

Equity-settled, share option plans are valued at fair value at the date of the grant and are expensed over the vesting years, based on the Company's estimate of shares that will eventually vest. The total amount to be expensed over the vesting years is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions. At each balance sheet date, the Company revises its estimates of the number of options that are expected to become exercisable. The share awards

are valued using the Black-Scholes option valuation method

The Company recognises the impact of the revision of original estimates, if any, in the Statement of Profit & Loss, with a corresponding adjustment to equity. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

(s) Cash and Cash Equivalents:

Cash and Cash Equivalents comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks (with an original maturity of three months or less from the date of acquisition). Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

(t) Earnings Per Share

Basic earnings per share is calculated by dividing net profit for the period/year by the weighted average number of ordinary shares outstanding during the period/year.

Diluted earnings per share is calculated by dividing the net profit by the weighted average number of ordinary shares outstanding during the period/ year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

(u) Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividend is recorded as a liability on the date of declaration by the Company's Board of Directors.

(v) Investment in Subsidiaries

Investment in subsidiaries is measured at cost.

During December 2019 the Company has received the assessment order from Income Tax Department u/s 143(3) of the Income Tax Act, 1961, for the Assessment Year 2016-17 and 2017-18, wherein a demand of Rs. 357 crores and Rs. 383.48 crores respectively has been raised, based on the historical dispute with the Tax Department, which is primarily on account of addition of arrears of designated returns to be recovered in future, valuation of land and other recoveries. The Company filed an appeal along with a stay application with the Income Tax Appellate Tribunal (ITAT). The matter was heard by the ITAT on March 29, 2019 and May 3, 2019. ITAT has adjourned the matter sine die, with directions to maintain status quo.

The Company on June 5, 2023 requested the Hon'ble ITAT for two clear dates to argue the matter and requested for no coercive action till the next date of hearing i.e. July 26, 2023. Accordingly, the matter was heard, argued and counter argued on July 26, 2023, August 1, 2023 and was concluded on August 2, 2023. Consequently, vide its Order dated August 8, 2023, the Hon'ble ITAT has pronounced its judgment for Assessment Years 2006-07 to 2011-12, wherein the appeals of the Revenue were dismissed and appeal of Company was allowed, thus addressing about 72% of the total demand in appeal with the ITAT of Rs. 23,127 crores. Further, the ITAT has vide its Order dated May 17, 2024, quashed the levy of penalty for the Assessment Years 2006-07 to 2011-12.

With regard to appeals pertaining to Assessment Years 2012-13 to 2014-15, the hearing of which took place on May 13, 2024 & May 22, 2024, and which has been subsequently concluded, the Company as well as the Department were directed to file the written submissions. Pursuant to the same, ITAT has passed the order dated August 21, 2024, wherein, amongst other matters, the enhancement of demand due to designated returns to be recovered in future and revenue subsidy on account of allotment of Land, have been deleted and some other matters have been remanded to the CIT(A) for adjudication. Consequently, collection of user fee from the users of the NOIDA bridge was suspended from October 26, 2016 and against which the Company had filed a Special Leave Petition (SLP) before the Hon'ble Supreme Court of India seeking an interim stay on the said Judgment.

On November 11, 2016, the Hon'ble Supreme Court issued an Interim Order denying the interim stay and sought assistance of the CAG to verify whether the 'Total Cost' of the Project in terms of the Concession Agreement was recovered or not by the Company. Since NOIDA did not act on the proposal, the Company had sent a notice of arbitration to NOIDA.

Subsequently, the Arbitral Tribunal was constituted and both the Company and NOIDA submitted their claims and counter claims. Further, NOIDA filed an application under Section 16 of the Arbitration and Conciliation Act, 1961 on the maintainability of the arbitration proceedings, which was rejected by the Arbitral Tribunal vide order dated August 10, 2018.

NOIDA further filed an application for directions before the Hon'ble Supreme Court seeking a stay on arbitral proceedings. On April 12, 2019 the Hon'ble Supreme Court directed a stay on Arbitral proceedings.

Meanwhile, the Company on October 4, 2021 received a final Notice of demand dated September 30, 2021, from NOIDA, wherein NOIDA raised an alleged demand of Rs 26.05 crores payable by the Company within three days of receipt thereof, failing which NOIDA threatened to remove all advertisement display on the NOIDA side of the DND Flyway. Subsequently, on December 9, 2021, the matter was mentioned and was heard by the Hon'ble Supreme Court on December 15, 2021, January 6, 2022 and January 10, 2022. Sensitivity Analysis of the defined benefit obligation:

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- · If the discount rate is 0.50% higher (lower), the defined benefit obligation would decrease by Rs. 0.23 Lakh (increase by Rs. 0.25 Lakh) (as at March 31, 2024: decrease by Rs. 0.66 Lakh (increase by Rs. 0.69 Lakh).
- If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligation would increase by Rs. 0.25 Lakh (decrease by Rs. 0.23 Lakh) (as at March 31, 2024: increase by Rs. 0.70 Lakh (decrease by Rs. 0.67 Lakh)).

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The plan asset consists of a scheme of insurance taken by the Trust, which is a qualifying insurance policy. Break down of individual investments that comprise the total plan assets is not supplied by the Insurer.

The principal assumptions used in determining post-employment benefit obligations for the Company's plans are shown below:

	Year ended March 31, 2025	Year ended March 31, 2024
Discount rate	7.23%	7.37%
Future salary increases	6.50%	6.50%
Rate of interest	6.50%	6.50%
Mortality table used	100% of IALM	100% of IALM
	(2012-14)	(2012-14)

The estimates of future salary increases considered in the actuarial valuation take into account inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market

Contributions expected to be made by the Company during the next annual reporting year is Rs. (0.49 Lakhs) (for the year March 31, 2024 Rs. 1.76 lakhs)

There has been no significant change to the company's exposure to market risks or the manner in which these risks are managed and measured.

The company is exposed to interest rate risk because it borrows funds primarily at floating interest rates. INDEPENDENT AUDITORS' REPORT

To the Members

ITNL Toll Management Services Limited

Report on Audit of INDAS Financial Statements

Opinion

We have audited the accompanying IND AS financial statements of ITNL Toll Management Services Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended and notes to financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) as prescribed by Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to *Note No. 24* of the financial statements which indicates that Union of India has filed petition against IL&FS Limited and its Group Companies in National Company Law Tribunal, SFIO investigation & forensic audit are under process for few group entities. The Company is economically dependent on its parent company for necessary financial and other assistance. The Continuity of the Company as a going concern is subject to continuation of O&M agreement with its parent Company. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our Opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the directors' report (but does not include the financial statements and our auditor's report thereon), which is expected to be made available to us after the date of auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Directors' report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism

throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content
 of the financial statements, including the disclosures, and
 whether the financial statements represent the underlying
 transactions and events in a manner that achieves fair
 presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure - B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of ITNL Toll Management Services Limited ("the Company") as of 31st March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Material Accounting Policies

a) Basis of Preparation

These financial statements have been prepared in accordance with the going-concern principle and on a historical cost basis. The presentation and grouping of individual items in the balance sheet, the Statement of Profit & Loss and the cash flow statement are based on the principle of materiality.

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

b) Significant accounting judgments and estimates

Judgements and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

c) Property, plant and equipment

Property, plant and equipment have been stated at cost less accumulated depreciation and accumulated impairment in value. Such cost includes the cost of replacing part of such plant and equipment when that cost is incurred if the recognition criteria are met.

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the period the asset is derecognized.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each reporting date.

d) Depreciation

All assets are depreciated on a Straight Line Method (SLM) of Depreciation, over the useful life of assets as

prescribed under Schedule II of the Companies Act, 2013 other than assets specified in para:

Furniture & Fixtures	7 years
Mobile	2 years

e) Impairment

Where an indication of impairment exists, or when annual impairment testing for an asset is required, the management makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in the income statement in those expense categories consistent with the function of the impaired asset.

f) Inventories

Inventories are valued at the lower of cost or net realizable value. Cost is recognized on First in First Out basis.

g) Provisions

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

h) Employee costs

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered service entitling them to the contributions. The Company has no obligation, other than the contribution payable to the provident fund.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re- measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other

comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- ► The date that the Group recognizes related restructuring costs

Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorized as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The retirement benefit obligation recognized in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognizes any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognized for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

i) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue comprises:

Operation & Maintenance Fees

Operation & Maintenance Fees is recognized on accrual basis in accordance with contractual rights.

Service Charges

Service charges are recognized on accrual basis, in respect of revenue recovered for the various business auxiliary services provided to the parties.

j) Expenditure

Expenditures have been accounted for on the accrual basis and provisions have been made for all known losses and liabilities

k) Taxes

Current tax represents the amount that would be payable based on computation of tax as per prevailing taxation laws. Current tax includes taxes on income and fringe benefit tax.

Current tax is determined based on the amount of tax payable in respect of taxable income for the period. Deferred tax is recognized on timing differences; being the difference between the taxable income and accounting income that originate in one accounting period and are capable of reversal in one or subsequent periods. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets arising on unabsorbed depreciation or carry forward of tax losses are recognized to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

l) Cash and Cash Equivalents:

Cash comprises of Cash on Hand, Cheques on Hand and demand deposits with Banks. Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

m) Earnings per Share

Basic earnings per share are calculated by dividing net profit for the year by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share are calculated by dividing the net profit for the year by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

A sum of Rs. 1.69 Lacs (previous year Rs.1.66 Lacs) has been charged to the Statement of Profit and Loss in this respect.

B. Defined-benefit plans:

Gratuity is computed as 15 days salary, for every completed year of service or part there of in excess of 6 months and is payable on retirement/termination/resignation. The benefit vests on the employee completing 5 years of service. The Gratuity plan for the Company is a defined benefit scheme and the Company makes provision of such gratuity asset/liability in the books of accounts on the basis of actuarial valuation.

The following table summarises the components of net expense recognised in the statement of profit & loss and amounts recognised in the balance sheet for gratuity.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- If the discount rate is higher by 0.50%, the defined benefit obligation would decrease by Rs 0.50 Lakhs (as at March 31, 2024: decrease by Rs.0.40 Lakhs). If the discount rate is lower by 0.50%, the defined benefit obligation would increase by Rs 0.54 Lakhs (increase by Rs. 0.43Lakhs))
- If the salary change is higher by 0.50%, the defined benefit obligation would increase by Rs 0.54 Lakhs (as at March 31, 2024: increase by Rs 0.43 Lakhs). If the salary change is lower by 0.50%, the defined benefit obligation would decrease by Rs 0.51 Lakhs (as at March 31, 2024: decrease by Rs.0.41 lakhs))

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Company's best estimate of contribution during next year is Rs. 0.91 Lakhs- (PY Rs. 0.66 Lakhs)

The principal assumptions used in determining pension and post-employment benefit obligations for the Company's plans are shown below:

We draw attention to the following:

(a) Note 33 (iii) and 34(ii) to the consolidated financial statements, as per which, in addition to the existing income tax demand on the Holding Company of Rs. 1,34,002.60 lakhs, for various assessment years between 2006-07 to 2014-15, the Holding Company was served an additional

tax demand for the said years aggregating Rs. 10,89,330.52 lakhs, along with imposition of an equivalent amount of penalty, i.e. Rs. 10,89,330.52 lakhs, for the said assessment years, resulting in a total demand of Rs. 23,12,663.64 lakhs, against which the Holding Company had appealed to the Income Tax Appellate Tribunal (ITAT). Further, the Holding Company was served with income tax demand for assessment years 2016-17, 2017-18 and 2018-19 aggregating Rs. 78,670.35 lakhs.

The ITAT, has vide its Orders dated August 8, 2023, and August 21, 2024, pertaining to AY 2006-07 to AY 2011-12 and AY 2012-13 to AY 2014-15 respectively, allowed the appeal of the Holding Company by pronouncing the enhancement of demand by the CIT(Appeals) as bad in law. Further, the ITAT, has vide its Orders dated May 17, 2024 and September 11, 2024, quashed the levy of penalty pertaining to AY 2006-07 to AY 2014-15. We are informed that the Income Tax department has not yet preferred an appeal against the said orders of the ITAT.

In view of the aforesaid Orders of the ITAT and facts of the case of other matters, the Management of the Holding Company is of the view that the said demands are devoid of any justification or merit. Consequently, the Holding Company has not made any provision for the demands in its financial statements.

(b) Note 32 to the consolidated financial statements, which relates to the Order dated March 12, 2020, of the Hon'ble NCLAT, confirming October 15, 2018, as the cut-off date for initiation of resolution process for IL&FS and its group companies. The said Order provides moratorium against actions by creditors against IL&FS and its group companies including the Holding Company. Consequently, the Holding Company has not made a provision for interest on loans taken from ICICI Bank Limited and IL&FS Transportation Networks Limited (ITNL), aggregating Rs 1,371.74 lakhs, for the year ended March 31, 2025 and Rs. 7,075.68 lakhs upto March 31, 2025.

Our opinion is not modified in respect of the above matters

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No	Key Audit Matter	Auditor's Response

1.	Evaluation of uncertain tax positions The Group has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes. Refer note 33(iii) and 34(ii) to the consolidated financial statements.	Principal Audit Procedures Obtained details of completed tax assessments, demands and other relevant correspondences for the year ended March 31, 2025 from the management. We also reviewed management's stand in the Appeal Petitions filed by the Holding Company. We discussed the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. We also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions.
2.	Suspension of Toll Operations at NOIDA DND Toll Flyway as per the Order of the Hon'ble Supreme Court.	Principal Audit Procedures
	On the Public Interest Litigation filed in 2012, challenging the validity of the Concession Agreement and seeking the Concession Agreement to be quashed, the Hon'ble Allahabad High Court directed the Holding Company to stop collecting the toll fee. Consequently, collection of toll fee was suspended since October 2016.	We have reviewed the Concession Agreement initially entered into by the Holding Company with NOIDA, together with the Order of Hon'ble Supreme Court dated November 2016, denying interim stay to the Holding Company from collecting user fee.
	The Holding Company's appeal to the Supreme Court against the above judgment was dismissed on December 20, 2024.	We have reviewed the stand taken by the Holding Company and the proposal of modification of the Concession Agreement which the Holding Company has submitted to NOIDA.
	As the Holding Company, by virtue of the concession arrangement, had obtained the right to collect toll from users of the bridge, it had created an intangible asset in the books, the net written down value of which as at December	We have also reviewed the orders of the Arbitration Proceedings on the claims and counter claims filed by both the Holding Company and NOIDA.
	31, 2024 was Rs. 23,249.70 lakhs. Consequent to the Supreme Court dismissing the appeal of the Holding Company, thereby upholding the decision of the Allahabad High Court regarding stalling the levy and collection of toll fee, the Holding Company, as a prudential accounting practice, has impaired the intangible asset.	Further, we reviewed the Order dated April 12, 2019, of the Hon'ble Supreme Court, directing stay on the Arbitral Proceedings, the Holding Company's application filed in the Hon'ble Supreme Court on January 31, 2020, seeking vacation of interim stay and the Order of the Supreme Court dated December 20, 2024, dismissing the appeal of the Holding Company.

3.	Evaluation of National Company Law Tribunal (NCLT) Order:	Principal Audit Procedures
	IL&FS is the promoter and majority shareholder of ITNL, while ITNL is the promoter of the Holding Company. On October 1, 2018, NCLT has passed an order under the provisions of Section 241 and 242 of the Companies Act, 2013. The Holding Company being a group company is also a party to it.	We have reviewed the orders uploaded on the NCLT website relating to the Holding Company, have read all the updates provided to the stock exchange by the Holding Company in relation to the NCLT matter and have also reviewed the Hon'ble NCLAT's Order dated March 12, 2020.
	National Company Law Appellate Tribunal (NCLAT) passed an interim order dated October 15, 2018, granting a moratorium on all creditor actions against IL&FS and its group companies. The Hon'ble NCLAT, vide its order dated March 12, 2020, has approved the revised resolution plan submitted by the new board of directors and has also approved October 15, 2018, as the cut-off date for initiation of resolution process for IL&FS and its group companies.	
	Basis the above, the Holding Company has not made a provision for interest on loan taken from ICICI Bank Limited and ITNL, aggregating Rs. 1,371.74 lakhs, for the year ended March 31, 2025 and Rs.7,075.68 lakhs upto March 31, 2025.

4.	Arrears of outdoor advertising & licence fee The Holding Company has received a demand notice dated September 28, 2018 from NOIDA for Rs. 369 lakhs, towards arrears of outdoor advertising and further demand notices during December 2018 and April 2019, aggregating Rs. 476 lakhs, towards arrears of licence fee, for which no provision has been made by the Holding Company. Refer note 34(vi) to the consolidated financial statements.	Principal Audit Procedures Our audit approach was appraisal of arrangement / agreements and legal stand taken by the Holding Company. Reviewed the Advertisement Policy of NOIDA and the permission letter received by the Holding Company for the display of outdoor advertisement. Correspondence between Holding Company and NOIDA was also reviewed wherein the Holding Company has requested to keep the demand in abeyance as the matter has been referred to Arbitration. Holding Company has also served copy of NCLAT Order dated October 15, 2018, wherein moratorium has been granted to the Group against all creditor actions.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including consolidated other comprehensive income), consolidated changes in equity and the consolidated cash flows of the Group, in accordance with the accounting principles generally accepted in India, including the accounting standards (Ind AS) prescribed under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records, in accordance with the provisions of the Act, for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were

operating effectively, for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in this Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the Board of Directors either intends to liquidate the respective Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the group are also responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain, reasonable assurance about whether the consolidated financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit, in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the
 consolidated financial statements, whether due to fraud or
 error, design and perform audit procedures responsive to
 those risks, and obtain audit evidence that is sufficient and
 appropriate to provide a basis for our opinion. The risk
 of not detecting a material misstatement resulting from
 fraud is higher than for one resulting from error, as fraud
 may involve collusion, forgery, intentional omissions,
 misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures

that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary incorporated in India has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content
 of the consolidated financial statements, including the
 disclosures, and whether the consolidated financial
 statements represent the underlying transactions and
 events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are, therefore, the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter, or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of the subsidiary of the Holding Company which is included in the consolidated financial statements, which has been audited by other auditor and whose audit report has been furnished to us and which reflects total revenue of Rs.254.95 lakhs and net profit of Rs.10.74 lakhs for the year ended March 31, 2025 and total assets of Rs.70.78 lakhs as at year ended March 31, 2025. Our opinion in respect thereof is based solely on the audit report of such other auditor.

Our opinion is not modified in respect of the above matter.

Annexure "A" to the Auditors Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **NOIDA Toll Bridge Company Limited** ("the Holding Company") and its subsidiary company incorporated in India, as at March 31, 2025, in conjunction with our audit of the consolidated financial statements of the Holding Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company and its subsidiary company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting, issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively, for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Holding Company and its subsidiary company, which is incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary company, which is incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and

the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary company, which is incorporated in India, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(1) BACKGROUND

(a) Corporate Information

Noida Toll Bridge Company Limited (NTBCL) ('the Company') is a public limited company incorporated and domiciled in India on April 8, 1996 with its registered office at Toll Plaza, Mayur Vihar Link Road, New Delhi- 110091. The equity shares of NTBCL are publicly traded in India on the National Stock Exchange and Bombay Stock Exchange. Global Depository Receipts (GDRs) represented by equity shares of NTBCL were traded on Alternate Investment Market (AIM) of the London Stock Exchange till May 3, 2017.

NTBCL and its subsidiary viz ITNL Toll Management Services Limited are hereinafter referred to as the "Group".

NTBCL has been set up to develop, establish, construct, operate and maintain a project relating to the construction of the Delhi Noida Toll Bridge under the "Build-Own-Operate-Transfer" (BOOT) basis. The Delhi Noida Toll Bridge comprises the Delhi Noida Toll Bridge, adjoining roads and other related facilities, Mayur Vihar Link Road and the Ashram flyover which has been constructed at the landfall of the Delhi Noida Toll Bridge. The Group operates under a single business and geographical segment.

(b) Service Concession Arrangement entered into between IL&FS, NTBCL and NOIDA

A 'Concession Agreement' entered into between NTBCL, Infrastructure Leasing and Financial Services Limited (IL&FS, the promoter company) and New Okhla Industrial Development Authority (NOIDA), Government of Uttar Pradesh, conferred the right to the Company to implement the project and recover the project cost, through the levy of fees/ toll revenue, with a designated rate of return over the 30 years concession period commencing from December 30, 1998 i.e. the date of Certificate of Commencement, or till such time the designated return is recovered, whichever is earlier. The Concession Agreement further provides that in the event the project cost with the designated return is not recovered at the end of 30 years, the concession period shall be extended by 2 years at a time until the project cost and the return thereon is recovered. The rate of return is computed with reference to the project costs, cost of major repairs and the shortfall in the recovery of the designated returns in earlier years. As per the certification by the independent auditors, the total recoverable amount comprises project cost and 20% designated return. NTBCL shall transfer the Project Assets to NOIDA in accordance with the Concession Agreement upon the full recovery of the total cost of project and the returns thereon.

In the past, NOIDA has been in discussion with the Company to consider modifications of a few terms of the Concession Agreement. The Company at its July 9, 2015 Board Meeting, approved the draft proposal (subject to approval by NOIDA & Shareholders) for terminating the Concession Agreement and handing over the bridge on March 31, 2031 and freezing the amount payable as on March 31, 2011.

(2) Material Accounting Policy Information

(a) Statement of Compliance

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 ("the Act"), Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

(b) Basis of Preparation of Consolidated Financial Statements

These consolidated financial statements have been prepared in accordance with the assumption of going concern and on a historical cost basis, except for financial assets and financial liabilities, which have been measured at fair value at the end of each reporting period. The presentation and grouping of individual items in the Balance Sheet, the Statement of Profit & Loss and the Statement of Cash Flows are based on the principle of materiality.

All assets and liabilities have been classified as current or non-current as per the criteria set out in the Companies Act, 2013. The Group has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(c) Fair Value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3, based on the degree to which the inputs to the fair value measurements are observable

and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(d) Basis of Consolidation

These consolidated financial statements incorporate the financial statements of the Company and the entity controlled by the Company. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group are consolidated on a line-by-line basis and intra-group balances and transactions, including unrealized gains/ losses from such transactions, are eliminated upon consolidation. These consolidated financial statements are prepared by applying uniform accounting policies in use at the Group. Noncontrolling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

(e) Accounting for Rights Under Service Concession Arrangement, Significant Accounting Judgments and Estimates

The preparation of consolidated financial statements in conformity with Ind AS requires the management

to make certain estimates, judgements and assumptions that affect the amount reported in these financial statements. Judgements and estimates are evaluated on an ongoing basis and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Changes in estimates are reflected in these financial statements in the period in which the changes are made.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Significant assumptions used in accounting for the intangible asset are given below:

- The Group has concluded that as operators of the bridge, it has provided construction services to NOIDA, the grantor, in exchange for an intangible asset, i.e. the right to collect toll from road users during the Concession period. Accordingly, such intangible asset has been measured at cost, i.e. fair value of the construction services. The Group has recognised a profit which is the difference between the cost of construction services rendered (the cost of the project asset) and the fair value of the construction services.
- The exchange of construction services for an intangible asset is regarded as a transaction that generates revenue and costs, which have been recognised by reference to the stage of completion of the construction. Contract revenue has been measured at the fair value of the consideration receivable.
- The Management has capitalised qualifying finance expenses until the completion of construction.
- Such intangible asset is assumed to be received only upon completion of construction and recognised on such completion. Until then, the management has recognised a receivable for its construction services. The fair value of construction services have been estimated to be equal to the construction costs plus margin of 17.5% and the effective interest rate of 13.5% for lending by the grantor. The construction industry margins range between 15-20% and Group has determined that a margin of 17.5% is both conservative and appropriate. The effective interest rate used on the receivable during construction is the normal interest rate which grantor would have paid on delayed payments.
- The Group considers that they will not be able to earn the assured return under the Concession Agreement over 30 years. The Group has an

assured extension of the concession as required to achieve project cost and designated returns. Post judgement of Hon'ble High Court of Allahabad dated October 26, 2016, wherein the Group has been directed to stop collecting the user fee has warranted to change the useful life of the intangible asset to 30 years.

- Development rights will be accounted for as and when exercised.
- The value of the intangible asset has been amortised over the estimated useful life using straight line method from October 27, 2016 (hitherto in the proportion of the revenue earned for the period to the total estimated toll revenue i.e. revenue expected to be collected over the concession period) upto December 20, 2024, being the date such assets was impaired.
- The carrying value of the aforesaid intangible asset was being reviewed for impairment annually or more often if events or changes in circumstances indicated that the carrying value may not be recoverable.

As the Supreme Court has dismissed the appeal of the Company, thereby upholding the aforesaid decision of the Allahabad High Court, the Company as a prudential accounting measure has impaired the intangible asset w.e.f December 20, 2024.

obligations: Maintenance Contractual obligations to maintain, replace or restore the infrastructure (principally resurfacing costs and major repairs and unscheduled maintenance which are required to maintain the Bridge in operational condition except for any enhancement element) are recognized and measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provision for the resurfacing is built up in accordance with the provisions of Ind AS 37. Timing and amount of such cost are estimated and recognised on straight line basis over the period at the end of which the overlay is estimated to be carried out based on technical evaluation by independent experts.

(f) Foreign Currency Transactions

The functional currency of the Group is Indian Rupees. Transactions in foreign currencies are initially recorded in the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange prevailing on the balance sheet date. The exchange difference arising on account of the difference between the rates prevailing on the date

of transaction and on the date of settlement, as also on translation of monetary items at the end of the period/ year is recognized as income or expense, as the case may be, in the Statement of Profit and Loss.

(g) Property, Plant & Equipment

Property, Plant and Equipment have been stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes all expenses, direct and indirect, specifically attributable to its acquisition and bringing it to its working condition for its intended use. Incidental expenditure pending allocation and attributable to the acquisition of fixed assets is allocated/ capitalised with the related assets. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

The carrying values of Property, Plant and Equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss, when the asset is derecognized.

The asset's residual values, useful lives and methods are reviewed, and adjusted if appropriate, at the end of each financial year.

(h) Depreciation

All items of Property, Plant and Equipment are depreciated on a Straight Line Method (SLM), over the useful life of such items as prescribed under Schedule II of the Companies Act, 2013 other than assets specified in para below.

The following items are depreciated over the useful life, other than the life prescribed under Schedule II of the Companies Act, 2013, based on internal technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions, past history of replacement, anticipated technological changes etc.:

Building	30 years
Data Processing Equipment	3 years
Furniture & Fixtures	7 years
Mobile and I-pad/Tablets	2 years
Vehicles	5 years

(i) Impairment

At each balance sheet date, the items of property, plant and equipment and intangibles are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount of such items is reviewed in order to determine the extent of impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs. An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is recognised in the Statement of Profit and Loss as and when the carrying amount of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

(i) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. Where funds are temporarily invested pending their expenditures on the qualifying asset, any such investment income, earned on such fund is deducted from the borrowing cost incurred.

All other borrowing costs are recognised as finance charges in the Statement of Profit and Loss in the period in which they are incurred.

(k) Inventories

Inventories of Electronic Cards (prepaid cards) and "On Board Units" are valued at the lower of cost or net realisable value. Cost is recognised on First in First out basis.

(1) Provisions and Contingencies

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result

of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Profit & Loss net of any reimbursement.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

(m) Employee Costs

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. The Group has no obligation, other than the contribution payable to the provident fund and superannuation fund.

For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each balance sheet date. Re-measurement comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in Other Comprehensive Income in the period in which they occur. Re-measurement recognised in Other Comprehensive Income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Past service costs are recognised in Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate at the beginning of the year to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and
- net interest expense or income; and
- re-measurement

The Group presents the first two components of defined benefit costs in Statement of Profit and Loss under 'Employee Benefits Expense'. Curtailment gains and losses are accounted for as past service costs.

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the Group can no longer withdraw the offer of the termination benefit or when it recognizes any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered, at the undiscounted amount of the benefits, expected to be paid in exchange for that service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

(n) Leases

The Group assesses whether a contract contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Where this occurs, the arrangement is deemed to include a lease and is accounted for either as finance or operating lease. Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

(o) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue comprises:

Toll Revenue

Toll Revenue is recognised in respect of toll collected at the Delhi Noida Toll Bridge and Mayur Vihar link Road and the attributed share of revenue from prepaid cards.

License Fee & rental income

License fee and rental income from advertisement hoardings, office space and others is recognised on an accrual basis in accordance with contractual rights.

Interest income

Revenue is recognised as interest accrues (using the effective interest method that is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset).

(p) Taxation

Current Tax

Current tax represents the amount that would be payable based on computation of tax calculated using tax rates and tax law that have been enacted or substantively enacted by the end of the reporting period. Current tax is determined based on the amount of tax payable in respect of taxable income for the period/ year.

Deferred Tax

Deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax assets and unused tax losses (where such right has

not been forgone), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax assets and unused tax losses can be utilised, except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Current and deferred tax are recognised as an expense or income in the Statement of Profit and Loss, except when they relate to items credited or debited either in Other Comprehensive Income or directly in equity, in which case the tax is also recognised in Other Comprehensive Income or directly in equity.

Minimum Alternative Tax (MAT)

Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Group will pay normal income tax during the specified period. Accordingly, MAT entitlement is recognised as an asset in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with it will fructify. Such asset is reviewed at each balance sheet date and the carrying amount of MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Group will pay normal income tax during the specified period.

(q) Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the trade receivables, deposits and other financial assets measured at amortised cost.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in Statement of Profit or Loss as if such gain or loss would have otherwise been recognised in Statement of Profit or Loss on disposal of that financial asset.

(r) Financial Liabilities and Equity Instruments

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables or as derivatives designated as hedging instruments in an effective hedge, as appropriate

The Group's financial liabilities include trade and other payables, loans and borrowings.

Classification as debt or equity:

Debt and equity instruments issued by a Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of the liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities that are not held-for-trading and are not designated as FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are

determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs'.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss..

(t) Share Based Payment Transactions

Equity-settled, share option plans are valued at fair value at the date of the grant and are expensed over the vesting year, based on the Group's estimate of shares that will eventually vest. The total amount to be expensed over the vesting year is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions. At each balance sheet date, the Group revises its estimates of the number of options that are expected to become exercisable. The share awards

are valued using the Black-Scholes option valuation method.

The Group recognises the impact of the revision of original estimates, if any, in the income statement, with a corresponding adjustment to equity. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

(u) Cash and Cash Equivalents

Cash and Cash Equivalents comprise of Cash on Hand, Cheques on Hand and demand deposits with Banks (with an original maturity of three months or less from the date of acquisition). Cash Equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risks of changes in value.

(v) Earnings per Share

Basic earnings per share is calculated by dividing net profit/ (loss) for the period/year by the weighted average number of ordinary shares outstanding during the period/year.

Diluted earnings per share is calculated by dividing the net profit/ (loss) by the weighted average number of ordinary shares outstanding during the period/ year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

(w) Dividend

Final dividend on the shares is recorded as a liability on the date of approval by the shareholders and interim dividend is recorded as a liability on the date of declaration by the Holding Company's Board of Directors.

34 Litigation

(i) The Hon'ble High Court of Allahabad, vide its Judgement dated October 26, 2016, on a Public Interest Litigation filed in 2012 (challenging the validity of the Concession Agreement and seeking the Concession Agreement to be quashed) had directed the Company to stop collecting the user fee, holding the two specific provisions relating to levy and collection of fee to be inoperative, but had refused to quash the Concession Agreement. Consequently, collection of user fee from the users of the NOIDA bridge was suspended from October 26, 2016 and against which the Company had filed a Special Leave Petition (SLP) before the Hon'ble Supreme Court of India seeking an interim stay on the said Judgment.

On November 11, 2016, the Hon'ble Supreme Court issued an Interim Order denying the interim stay and sought assistance of the CAG to verify whether the 'Total Cost' of the Project in terms of the Concession Agreement was recovered or not by the Company. CAG submitted its report to the Hon'ble Supreme Court and the bench was directed on September 14, 2018, that the report submitted by the CAG be kept in a sealed cover.

The Company also notified NOIDA that the Judgement of the Hon'ble Allahabad High Court, read with the Interim Order of the Hon'ble Supreme Court of India constituted a 'change in law' under the Concession Agreement and submitted a detailed proposal for modification of the Concession Agreement, so as to place the Company in substantially the same legal, commercial and economic position as it was prior to the said change in law. Since NOIDA did not act on the proposal, the Company had sent a notice of arbitration to NOIDA.

Subsequently, the Arbitral Tribunal was constituted and both the Company and NOIDA submitted their claims and counter claims. Further, NOIDA filed an application under Section 16 of the Arbitration and Conciliation Act, 1961 on the maintainability of the arbitration proceedings, which was rejected by the Arbitral Tribunal vide order dated August 10, 2018.

NOIDA further filed an application for directions before the Hon'ble Supreme Court seeking a stay on arbitral proceedings. On April 12, 2019 the Hon'ble Supreme Court directed a stay on Arbitral proceedings.

Meanwhile, the Company on October 4, 2021 received a final Notice of demand dated September 30, 2021, from NOIDA, wherein NOIDA raised an alleged demand of Rs 26.05 crores payable by the Company within three days of receipt thereof, failing which NOIDA threatened to remove all advertisement display on the NOIDA side of the DND Flyway. On receipt of the said Notice, the Company filed an interim application on October 4, 2021, before the Hon'ble Supreme Court. Based on the Letter of Urgency/ Mentioning filed by the Company, the matter was listed for hearing on October 26, 2021. Inspite of the Company informing all the developments at the Hon'ble Supreme Court to NOIDA, the NOIDA authorities unlawfully removed all the advertisement display from NOIDA side of DND Flyway on October 14, 2021.

Subsequently, on December 9, 2021, the matter was mentioned and was heard by the Hon'ble Supreme Court on December 15, 2021, January 6, 2022 and January 10, 2022. On January 19, 2022, the Hon'ble Supreme Court disposed the interim application filed on October 4, 2021, with the direction that the Company may be permitted to put up outdoor advertisement on payment of Rs. 125 per square feet per month, in advance, subject to the outcome of the SLP of 2016 filed by the Company.

Subsequently, the matter was heard on July 27, 2023 wherein the Hon'ble Supreme Court requested the learned Additional Solicitor General of India to examine the report submitted by the CAG and assist the Hon'ble Supreme Court on the said fixed date and the matter was posted for hearing on September 25, 2023. On September 25, 2023 the Learned Bench of Hon'ble Supreme Court took note of the fact that the Respondent have been provided a copy of the CAG Report and thus directed the matter to be listed for final arguments on November 21, 2023.

On November 21, 2023, the Learned Bench noted that service and pleadings in SLP(C) were complete and directed the matter to be listed on January 30, 2024, however, the matter was not taken up on January 30, 2024, February 6, 2024, February 20, 2024, March 5, 2024, and April 2, 2024. The arguments from both ends commenced on July 30, 2024, and the matter was notified for hearing on August 13, 2024. On August 13, 2024, the matter was finally heard and reserved for order. The Hon'ble Supreme Court granted liberty to the parties to file written submissions within 10 days on August 14, 2024. Accordingly, the Company filed its written submissions before the Hon'ble Supreme Court on August 24, 2024.

After several hearings on the matter, the Hon'ble Supreme Court has vide its judgment dated December 20, 2024, dismissed the SLP filed by the Company by upholding the judgment passed by the Hon'ble Allahabad High Court regarding stalling the levy and collection of user fee. In view of the aforesaid judgment of the Hon'ble Supreme Court, the Company, as a prudential accounting and reporting measure, has impaired the intangible asset with carrying value of Rs. 23,249.69 lakhs, which it had created by virtue of the right conferred on the Company under the Concession Agreement, to collect user fee from the users of the NOIDA bridge.

However, the Company, on the basis of advice from legal experts, is of the opinion that, there are certain legal recourses available with it and pursuant thereto has filed a review petition, on January 19, 2025, against the aforesaid judgment of the Hon'ble Supreme Court. In the meanwhile, the Company continues to closely monitor all further developments regarding the matter and take appropriate action, including reviewing the aforesaid impairment, depending on the course of future events.

The Company continues to fulfil its obligations as per the Concession Agreement, including maintenance of Project Assets. Accordingly, provision for major maintenance has been carried at Rs. 3,793.38 Lakhs as on March 31, 2025 (As on March 31, 2024 Rs. 3,612.74 Lakhs).

However pending final settlement of the dues, the company had estimated the cost at Rs. 2.93 crores and provided the same as a part of the project cost. A sum of Rs. 0.92 crores has so far been paid against the demand out of the aforesaid provision. - The Company on October 4, 2021 received a final Notice of demand dated September 30, 2021, from NOIDA, wherein (vi) NOIDA raised an alleged demand of Rs 26.05 crores payable by the Company within three days of receipt thereof, failing which NOIDA threatened to remove all advertisement display on the NOIDA side of the DND Flyway. On receipt of the said Notice, the Company filed an interim application on October 4, 2021, before the Hon'ble Supreme Court. Based on the Letter of Urgency/ Mentioning filed by the Company, the matter was listed for hearing on October 26, 2021. Inspite of the Company informing all the developments at the Hon'ble Supreme Court to NOIDA, the NOIDA authorities unlawfully removed all the advertisement display from NOIDA side of DND Flyway on October 14, 2021. On October 26, 2021 the matter was not taken up for hearing by Hon'ble Supreme Court due to paucity of time. The Company once again physically mentioned the Urgency before the Hon'ble Supreme Court on October 28, 2021 and the matter was listed for hearing on November 9, 2021 and subsequently was posted for hearing on December 1, 2021 and December 7, 2021. Subsequently, on December 9, 2021, the matter was mentioned and was heard by the Hon'ble Supreme Court on December 15, 2021, January 6, 2022 and January 10, 2022. On January 19, 2022, the Hon'ble Supreme Court disposed the interim application filed on October 4, 2021, with the direction that the Company may be permitted to put up outdoor advertisement on payment of Rs. 125 per square feet per month, in advance, subject to the outcome of the SLP of 2016 filed by the Company.

During September 2018, NOIDA had served a writ of demand for an amount of Rs. 3.69 crores, in relation to revenue from advertising on the NOIDA side of the DND Flyway and an additional demand (during December 2018 and April 2019) aggregating Rs 4.76 crores towards arrears of licence fee. The Company had requested NOIDA to keep both the demands in abeyance since the matter had been referred to Arbitration by NOIDA and further no action could be taken against the Company due to the moratorium granted in view of the NCLAT order dated October 15, 2018.

(vii) In terms of the License Agreement dated August 23, 2018 and November 1, 2018 and addendum thereto dated July 1, 2019, entered into with the erstwhile Licensee, the Company has terminated the said Contract as per the provisions thereof. The erstwhile Licensee has initiated an Arbitration proceeding against the Company. The matter is currently pending.

The Company also challenged the order of the Arbitrator dated March 3, 2023, requiring the company to submit a fixed deposit of Rs. 5 crores with the Arbitrator till the final disposal of the matter, in the Hon'ble HC of Delhi and has been able to obtain a stay on the said order of the Arbitrator on April 12, 2023. Subsequently the matter was heard on August 9, 2023 and October 16, 2023 and the final arguments commenced during the hearing on October 16, 2023 and November 28, 2023. On November 28, 2023 the Hon'ble HC of Delhi allowed the Appeal of the Company and set aside the impugned Order dated March 3, 2023 of the Arbitrator, to the extent it directed the Company to make a deposit of Rs. 5 Crores.

The erstwhile Licensee filed an SLP on February 26, 2024 before Hon'ble Supreme Court against the order dated November 28, 2023 passed by Hon'ble HC of Delhi in favour of the Company. On April 8, 2024 the Hon'ble Supreme Court declined to interfere with the impugned order of Hon'ble HC of Delhi and accordingly the SLP filed by erstwhile Licensee was dismissed. The Process of filling Evidence Affidavit is under progress.

(viii) Licensee was dismissed. The Process of filling Evidence Affidavit is under progress. The Company has during recent years been served with several notices from the office of the Land Acquisition Collector (South East), Delhi on account of applications moved by the petitioners, being the owners of the lands, which were acquired for the construction of the DND flyway, and who were seeking enhancement of the monetary compensation received by them at the time of land acquisition.

The Company has responded to the above notices, mentioning that the Company has sub-leased the project lands from NOIDA vide sub-lease deed in accordance with the Concession Agreement. NOIDA has vide the sub-lease deed given an express representation to the Company that the leased lands are being vested to the Company with vacant possession and are free from encumbrances of legal as well as physical nature. Also, the Company has mentioned therein that no action can be taken against the Company on account of the moratorium granted to it vide NCLAT Order dated October 15, 2018.

Sensitivity Analysis of the defined benefit obligation:

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

If the discount rate is 0.50% higher (lower), the defined benefit obligation would decrease by Rs. 0.78 Lakh (increase by Rs. 0.78 Lakh (increase by Rs. 1.06 Lakh (increase by Rs. 1.13 Lakh).

If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligation would increase by Rs. 0.79 Lakh (decrease by Rs. 0.73 Lakh) (as at March 31, 2024: increase by Rs. 1.13 Lakh (decrease by Rs. 1.07 Lakh).

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The plan asset consists of a scheme of insurance taken by the Trust, which is a qualifying insurance policy. Break down of individual investments that comprise the total plan assets is not supplied by the Insurer.

The principal assumptions used in determining pension and post-employment benefit obligations for the Group's plans are shown below:

	Year ended	Year ended	
	March 31, 2025	March 31, 2024	
Discount rate	7.23%	7.23%	
Future salary increases	6.50%	6.50%	
Rate of interest	6.50%	6.50%	
Mortality table used	100% of IALM (2012-14)	100% of IALM (2012-14)	

The estimates of future salary increases considered in the actuarial valuation take into account inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market

Contributions expected to be made by the Group during the next year is Rs. 0.42 Lakh (for the year March 31, 2024 Rs.2.41 Lakh)

39.3 Financial risk management objectives

The main risk arising from the Group's financial instruments are cash flow interest rate risk, liquidity risk and credit risk. The Group reviews and agrees policies for managing these risks as summarised below.

39.3.1 Market risk

The Group's activities expose it primarily to the financial risks of changes in interest rates.

There has been no significant change to the Group's exposure to market risks or the manner in which these risks are managed and measured.

39.3.2 Interest rate risk management

The Group is exposed to interest rate risk because it borrows funds primarily at floating interest rates. However, the interest rates are dependent on prime lending rates of the Banks which are not expected to change very frequently and the estimate of the management is that these will not have a significant upward trend

The following tables detail the Group's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.
